3	Valuing Vacant Land was and excellant cass and Jmaes Elliot is a great instructor.	
4	I always enjoy USPAP. Harry Fuller is a great instructor.	
5	Presenting Your Best Case - 1/2 day	
6	#5. Great Instructor "Harry" kept the class lively!	
7	#5 The instructor new the material and made it about as interesting as he could for being a USPAP course.	
8	5----EXCELLENT, Harry did a great job.	
9	#2--The instructor spent so much time explaining the definitions of words which we all knew, and then we only only had the last 30 minutes of class to discuss how to actually value vacant land - which is what we all thought this class was going to be about. No one in this class needed a review of definitions as we are all way more experienced than that, we just wanted to learn how to value vacant land parcels but unfortunately that was not taught at all since he didn't have time.	
10	#2 Valuing Vacant Land	
11	3. In my humble opinion too much class time was spent on elementary court principles, which was covered early on in appraisal education. Preparing with the attorney, reviewing your appraisal, file preparation and witness preparation would be good areas to increase the students' knowledge base.	
12	4. Great class. DPT did a great job with the details of PI.	
13	5. Harry does a great job keeping this class fun & interesting.

3	Deane Wilson's classes are always different and interesting	
4	(12) No water for part of the class and temperature swings.	
5	Ethics in Appraising is a very thought provoking class. It was excellant as have been all of the classes that I have attended that were instructed by Deane Wilson.	
6	Statistics - this was a very good class.	
7	The Water Law class is exceptional both in presentation and content. It is one of those classes that you can take over & over and still learn something.

2	(22) Was expecting to discuss duplex triplex and Townhouses, however class was for apartments. Round tables made it difficult to follow overhead presentation.	
3	Appraising Rural Residential Properties was a good class. I would love to Have Richard Gilmore back to teach Conservation Easements.	
4	Statistics - This was very good, well set up and lots of participation - hands on. This is the best way to learn. Very knowledgeable, helpful and fun!! Instructor.

9	#16, very informative class and I will definitely benefit from the acquired knowledge!	
10	#23 Appraisal of Self Storage Facilities	
11	19. I enjoyed the class but it got to a point where I feel that there was a bit of overkill with all the slides. Also, the teacher may want to try not to generalize about the "type of people" who live in manufactured homes. Some of the comments could have come across as a little derogatory to those of us who happen to live in a manufactured home - like myself. Luckily, I do not take offense easily but it's something to keep in mind.	
12	20. One of the best (1) day classes I have taken at CATA.	
13	restructuring income statements- one of the best income classes I have taken. Actually applicable to everyday work.	
14	20. Excellent Class	
15	22. Class description should have been more clear. Did not understand that I had signed up for Apartment valuation. Also the circle tables did NOT work well. Uncomfortable to see and work.	
16	Rural Structure Valuation	
17	Regarding question #20 Great class taught by Garth Thimgan. I always learn by applying what I learn in class.	
18	Statistics	
19	22. It was a very good class. The slide show presentation was excellent and the groups case studies were educational and informative but the handout was very small print which is hard for future reference. The instructor indicated he would email a better copy of class but I have not heard back yet (several weeks).	
20	Dick Gilmore has alot of personal experience to share.	
21	16. As always outside DPT sourced classes really focus on fee appraisals and not mass. The instructor was extremly knowledgable and kept the class interested, but would like to of had it relate to mass appraisal more.	
22	#21 This class did not really pertain to Mass appraisal of Rural Residential properties and the pitfalls you may come across. The class was more in line with single property appraisal.

1	Actually liked Beaver Run better. Hard to get lunch figured out at the Village.	
2	I have hypoglycemia and I felt Breakfast was pretty limited on Monday, Tuesday and Thursday. I didn't have anything except orange juice and it tasted watered down.	
3	Some rooms were kind of small but this place is way better than Beaver Run.	
4	Difficult to locate classes without asking for assistance. Too spread out.	
5	Not enough parking passes was frustrating. Overcrowded tables in classrooms.	
6	SETUP WAS GOOD BUT TEMPERATURE WAS VERY INCONSISTENT. MOSTLY FREEZING	
7	I prefer Breckenridge over Copper Mountain anyday. I like Beaver Run better than the Village but the Village is nice too.	
8	classrooms seemed to be either very cold or very warm. Felt that the tables were set close together and hard to get into/out of seats in some classrooms. Warm breakfast was poorly run by the facility with cold food and items not restocked.	
9	Great place.	
10	The small classrooms were a little small for the number of students in attendance.	
11	Classrooms were too cramped and hotel front desk staff was not adequately prepared for the volume of attendees or that there was weird billing situations that were common for us.	
12	Best CATA conference I have attended. Andy Wyatt	
13	Constant slamming of bathroom doors outside of my classroom for PI and Ag Classification was a distraction.	
14	Class room size was very small, no elbow room	
15	Please choose a room that is appropriate to the number of attendees. The Mass Appraisal Review class was way too tight.	
16	The parking situation upon arrival was very confusing, so I wish that we were informed of what to do after we booked our rooms. Also, many of the front desk staff and valet parkers didn't know where the classrooms were so we had to walk around and try to find out what class room we were in... It would have been helpful to have received a map showing the location of the classrooms upon arrival for sure, but also it would have been nice to ensure some of the newly hired front desk associates knew the exact location of these conference rooms.	
17	Fee 24hr parking that is accessible without a valet would be nice.	
18	Would be nice if there was a restaurant in the hotel for quicker lunches.	
19	Classrooms were good. Was not uncomfortable in any class.	
20	31 and 32 Good location for conference near downtown. I would not stay here again due to the lack of maid service, general cleaning, not changing sheets on a daily basis etc., although they charge full fare for each night. no thanks	
21	Some of the classrooms were a little small.	
22	Classrooms generally on the chilly side. A couple classes could have been held in a larger room, it was a little cramped.	

23	Classes were cramped, but I liked being closer to town.		
24	I absolutely disliked the Resort. The classrooms were either uncomfortably hot or uncomfortably cold. The seats were uncomfortable, the tables were too small to accommodate the number of people sitting at them. The breakfast supply was always short leaving people with just fruit options. This was my fifth CATA and by far the worst experience. Please find a way out of the contract so we can possibly go back to Beaver Run next year, or any place other than the Village at Breckenridge. Thanks.		
25	Didn't have enough room in some classrooms. Sat twice in a seat where I had to straddle the table leg.		
26	Overall, I felt okay about CATA this year.		
27	Wish the hotel rooms had microwaves; otherwise were great. Pastries at breakfast always seemed dry. The tables at the conferences were too crowded; seems they were designed for 2 people, not 3 at a table. The placement of the legs on the tables made it awkward and uncomfortable for people sitting near them; sometimes had to straddle legs in order to sit at the table.		
28	For the cost, the breakfast presentation was far inferior to that of Beaver Run. Would expect a more grand presentation at a resort, rather than a motel style layout.		
29	classrooms where either to warm or to cold, depending on where you sat in the room.		
30	There was not enough food on the buffet, we only had chicken and limited sides, with no other options offered. Also, breakfast items always empty and never seemed organized. For the number of guests and rooms, I feel the resort should have been much more hands on approach.

4	Tuesday dinner ran out of steak!	
5	The board does an excellant job. A special thanks to Mike Peterson for all his hard work keeping us in line and rescheduling classess to accomadate our needs.	
6	Never saw any vendor tables.Liked the facility much better than the previous as was closer to town and housing units were better.	
7	Great opportunity to get the continuing education hours required for licensing.	
8	Being in the "downtown" location made the overall experience much nicer.	
9	I loved the idea of going to the brewery, but we had no room to walk, let alone eat... I would have loved it if we had rented out the entire brewery to accommodate all of us, many people didn't even have room to stand and eat upstairs so many people left to go have dinner elsewhere. Only a small percentage of a few lucky people got to actually sit down, eat, and enjoy their drinks/food. I would recommend trying to book the entire brewery next time so we are all comfortable and feel like we have enough places to sit and eat.	
10	Getting to restaurants for lunch and back to class in time is still tough. A more frequent shuttl would help.	
11	The staff was friendly and accommodating. The Brewery Party is very crowded. Maybe have some more room downstairs??	
12	Overall, it was a very well done conference.	
13	no.	
14	I truly disliked the Resort. I hope we will be able to use a different Resort for 2016.	
15	None.	
16	Breck Brewery is too crowded for a large party.	
17	Thank you all for your time and energy putting this all together!	
18	Enjoy the new location. Both are nice but it is a nice change to have the conference somewhere different. Good job!	
19	next year they should do monday night party at the hotel everyone is staying at and make it a theme that would be fun!!	
20	The Tuesday night dinner should be more interactive. All the appraisers are in one spot, might as well have some fun. More organization is recommended.
